POWER INVERTERS 12 VOLTS

M SERIES

M1500 - M2000

TRUCK SERIES POWER INVERTERS

Tundra's M SERIES are the most reliable and efficient modified sine wave inverters on the market. With a precisely regulated output voltage, they provide industrial-strength power for a wide variety of appliances and electronic equipment. Available in power ranges of up to 3000 watts continuous AC power output, they are lightweight, yet rugged enough for the toughest mobile environments such as commercial trucks and mobile workshops.

PERFORMANCE.
RELIABILITY.
DURABILITY.

- HEAVY DUTY DESIGN
- 120V CONTINUOUS DUTY
- 93% OUTPUT EFFICIENCY
- OVERLOAD PROTECTION
- LOW BATTERY PROTECTION TO GUARANTEE ENGINE START
- REVERSE POLARITY PROTECTION

EXCLUSIVE

POWER SAVING TECHNOLOGY

Prevents catastrophic and costly battery drainage by triggering a complete shutdown after 1 hour in error code mode.

TIME DELAY TECHNOLOGY

Battery protections are activated after a 30-second delay to prevent unintentional shutdown of the inverter during engine start-up. Keeps CPAPs « ON » in AUTO-START mode.
